

PRO-CHEM-CO, INC.

TECHNICAL DATA

PRO-TAP

ALL PURPOSE TAPPING FLUID

DESCRIPTION:

PRO-CHEM-CO's **PRO-TAP** is an "evaporative" tapping fluid for hand tapping and threading of both ferrous and non-ferrous metals. **PRO-TAP** offers the ultimate in lubricity and cleanliness in a unique formulation of extreme pressure, friction modifying, and metal wetting additives.

BENEFITS:

- Increased Tap Life
- Improved Part Finish
- Eliminates Chipping & Galling
- "Oil Free" Biodegradable
- No Mess Or Waste (Evaporative)
- Multimetal Safe
- Reduces Tool Breakage
- Improved Thread Quality

APPLICATIONS:

- Hand Tapping
- External Broaching
- Stamping
- Tapering
- Threading
- Pipe Reaming
- Bending
- Extruding
- Peck Drilling
- Piercing
- Blind Hole Tapping
- Light-Duty Forming

DIRECTIONS FOR USE:

PRO-TAP is used as received by hand spraying, dipping, or flooding tap or tool. The evaporative nature of the fluid allows for instant “cling” to the tap without excessive waste or mess.

PROPERTIES:

Appearance -----	Clear, Colorless Liquid
Odor -----	Characteristic
Specific Gravity -----	0.808

PACKAGING:

PRO-TAP is available in aerosol, pints, gallon cans, 5-gallon pails, and 55-gallon drums.
