TECHNICAL DATA

PRO-COAT 135

SOLVENT-BASED INDOOR CORROSION PREVENTATIVE

DESCRIPTION:

PRO-COAT 135 is a water displacing, solvent based, rust and corrosion preventative. PRO-COAT 135 displaces moisture from metal surfaces leaving a thin, imperceptible protective film. This protective film is transparent/translucent and provides moisture and rust protection for over 1 year of indoor storage.

BENEFITS:

- Resists acid fumes
- Resists water & humidity
- Non-staining
- Long term indoor storage
- Harmless to rubber seals & plastics
- Fingerprint neutralizer
- Imperceptible film – will not hide part!
- Displaces water from wet parts
- Outstanding wetting properties
- Easy to use (no mixing or measuring)
- Polar, nonconductive film
- Non-gumming

APPLICATIONS:

- Protect dies, tools, jigs, and machine surfaces.
- “Penetrates” and “loosens” frozen parts!
- Protect automotive parts between operations.
- Rust proof cast iron parts.
- Protect any metal surface for 1 year indoors.
- Mill oil for sheet stock and wire.
- Edge sealant for steel.
- Anywhere long-term rust protection is needed.

DIRECTIONS FOR USE:

PRO-COAT 135 is always used as received and can be applied by dipping, roller coat, brush, or low pressure spray methods.

Note:

PRO-CHEM-CO can custom formulate corrosion preventatives to your particular need and/or meet military specifications.

PROPERTIES:

Appearance -----	Amber, Clear Liquid
Specific Gravity -----	0.821
Pounds/Gallon -----	6.92
Viscosity -----	45 SUS @ 100°F
Flash Point -----	145° F
Pour Point -----	36° F

PACKAGING:

PRO-COAT 135 is available in 5-gallon pails, 55-gallon drums, totes and bulk.
