TECHNICAL DATA

TOOL KIT

MULTIFUNCTIONAL METALWORKING LUBRICANT

DESCRIPTION:

PRO-CHEM-CO's **TOOL KIT** is a combination rust preventative, stamping lubricant, cleaner, penetrant, and water displacer in one product! **TOOL KIT** is such a useful and multifunctional product it should be in every **TOOL KIT**. **TOOL KIT** can be used on any metal surface without staining to achieve outstanding lubricity, wettability, and corrosion resistance.

BENEFITS:

- Repels water & humidity
- Removes rust
- Protects and "seals off" metal
- Good detergency
- Exceptional lubricity
- Instantly loosens corroded films on metal surfaces
- Fingerprint neutralizer
- Film integrity unaffected by temperature

APPLICATIONS:

- **Loosens** frozen pipe joints, nuts, bolts, screws, clamps, etc.
- **Lubricates** hinges, slide mechanisms, bearings, gauges, etc.
- **Stamps and Blanks** light to medium gauge aluminum or steel coil/sheetstock.
- **Rust Proofs** machine tables, bushings, machine/hand tools, gun barrels, farm implements, and any area susceptible to corrosion or high humidity.
- **Displaces** moisture from motors, pumps, wires, and switches.
- **Cleans** off rust and light oils from machine beds, chucks, ways, gears, threaded holes and internal machine parts.

Note:

* **TOOL KIT** has so many possible applications; we do not even know them all. Please let us know of your successes and/or "new" applications.

DIRECTIONS FOR USE:

TOOL KIT is used as received. **TOOL KIT** may be applied by spray, aerosol, roller, drip, or immersion methods.

PROPERTIES:

Appearance -----	Dark Amber, Clear Liquid
Odor -----	Characteristic
Specific Gravity -----	0.803
Solubility -----	Insoluble in Light Oils or Kerosene

PACKAGING:

TOOL KIT is available in 4 X 1 gallon cases, 5-gallon pails, 55-gallon drums, totes.
